² The discount rate is the fee charged to you for regular or special terms; it will be deducted from the amount funded to you. We may change the discount rate structure in any way at any time.

³ This is a deferred interest promotion. This means that if the purchase balance is not paid in full within the special terms promotional period, interest will be charged to the account from the purchase date at the regular APR for Purchases. Making only regular monthly payments will not pay off the purchase balance within the promotional period.

⁴ The percentages (payment factors) used to calculate the payment are estimates only. The actual payment amount may vary. For merchant use only.
