INTRODUCTION

Now's the perfect chance to finally tour a few of our Trane Manufacturing plants — right from your home.

For those who are not able to visit the Tyler, TX plant, Vidalia, GA plant, or the Trenton, NJ plant in-person, you can now gain the full experience through our in-depth virtual tour. Our Learning Management System (LMS) is now offering you the ability to get a detailed walk-through of the labs, assembly lines, testing facilities, and more—right alongside a knowledgeable tour guide.

Virtual Tours consist of videos that you can watch at your own pace, preferably from a desktop or laptop computer. These valuable tours allow you to digitally navigate through the rooms and facilities of the main plants and engineering and furnace labs. Plus, you can see clips of these areas in-action while hearing credible and powerful insights from the experts themselves. Take this opportunity to gain a full understanding of our plants and see them in a way like never before.

FIELDTECHHELP.COM

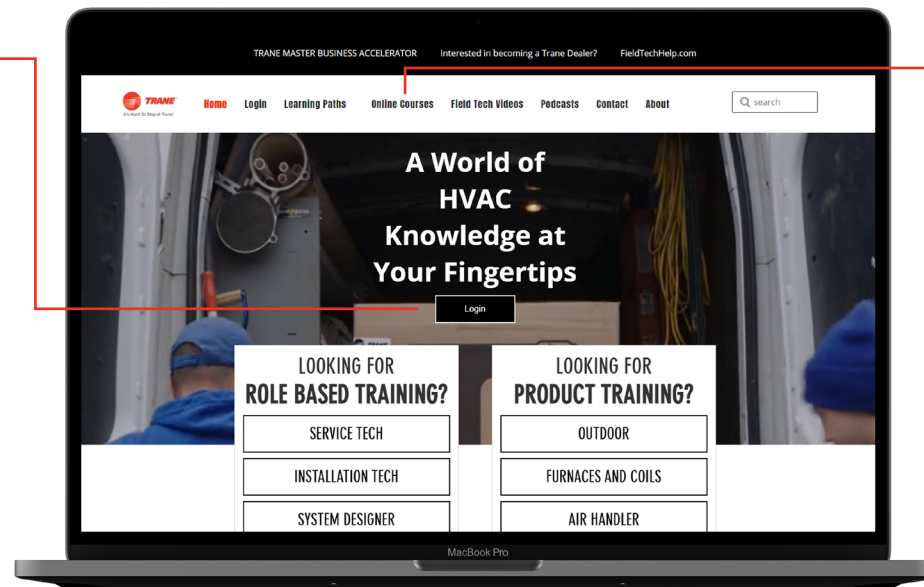

REGISTERING

Visit FieldTechHelp.com

Next, choose your brand. You will then be directed to the LMS home page.

CLICK "LOGIN"

Your username will be the same as your ComfortSite username. Your password is initially set as "welcome." You can change this password by either clicking "Forgot my password" or changing it through your account details once logged in.

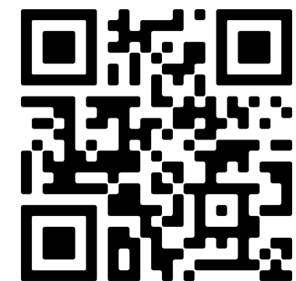

VIRTUAL TOURS

You can find virtual tours under "Online Courses" and "Virtual Tours." Choose "Enroll" and get started at your own pace.

STILL HAVING TROUBLE LOGGING IN?

By self-registering, you may not have access to all Virtual Tours.

In this case, contact: LearningResources@TraneTechnologies.com

Scan to be directed right to the Virtual Tours!

GETTING STARTED

Once you've clicked "Enroll," you're ready to start your virtual tours.

If you still cannot access the courses, you can request access by emailing LearningResources@TraneTechnologies.com.

Select Your Tour Stops.

We're bringing the tour experience of our manufacturing facilities in Trenton, NJ, Vidalia, GA, and Tyler, TX right to you! See the auto braze area in action, watch an air handler unit assemble before your eyes, and so much more. Whether you're a dealer, a distributor, or an employee we're happy to have you.

REGISTERING

Accessible 24/7 from anywhere.

We recommend using a laptop or desktop computer for the best viewing experience.

ACCESSIBILITY

Visit and explore the Tyler, Vidalia and Trenton plants from anywhere in the world, at any time of day.

INTERACTIVITY

Navigate to the plant locations that interest you. A few of our Tyler stops offer 360° footage for a fully immersive experience. You'll feel like you're really there!

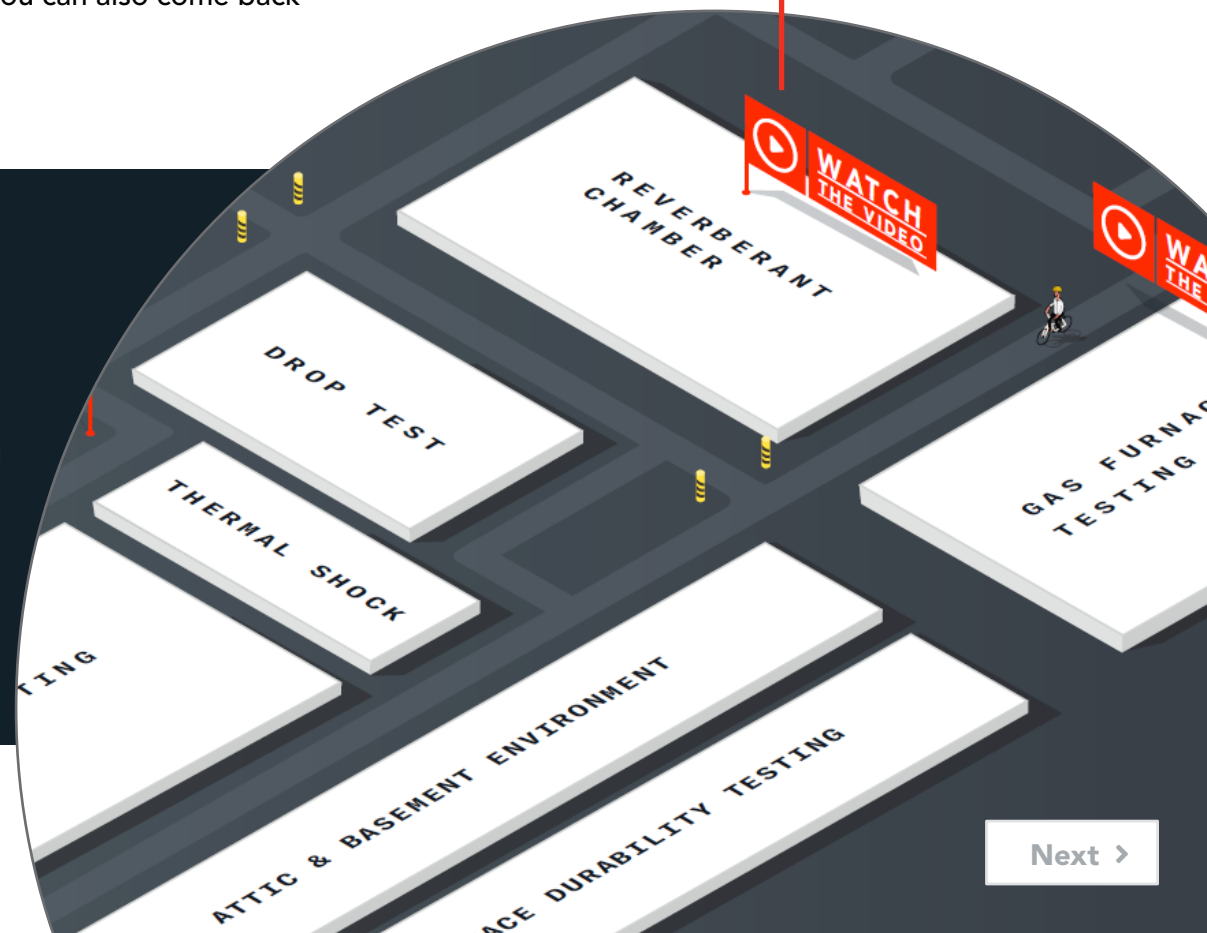

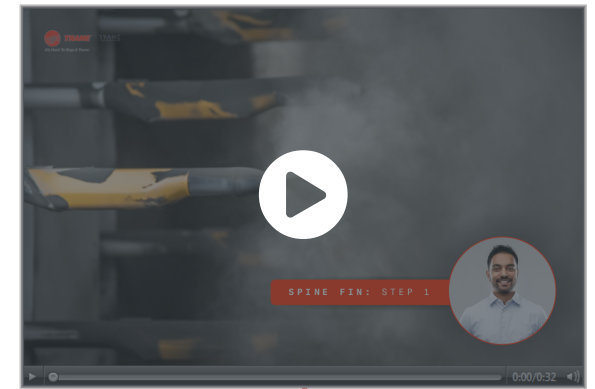

GETTING STARTED

Navigate through each map.

After choosing a location, click on the flags within each map to see different areas in-action. Your tour guide will give you detailed insight into some of the most innovative processes and testing that take place in our plants and labs.

Choose exactly where you want to start and stop. Your course will keep track of your progress so that you can always pick back up where you left off.

Once you've completed the videos within all three factories, make sure to download your certificate/badge and share it with others. You can also come back anytime if you want even after the course is completed.

GETTING STARTED

Why take a Virtual Tour?

Everyone who interacts with our company can benefit from seeing the Tyler, Vidalia, and Trenton facilities firsthand, but many are unable to take the time and expense to travel and see them.

Virtual Tours allow you to build a better understanding of our manufacturing sites' performance and potential, assess it against competitors, and effectively communicate the company's performance, strategy, and unique offering.

DISTRIBUTORS

Distributors can get equipped with a full understanding of how our products come to life and see the unique processes and testing that all of our products go through.

DEALERS

Dealers can gain the knowledge to be able to speak confidently about our brands and products.

NEED HELP?
